

Slimline Key Fob

Product number : KR19E

Typical applications

Control lights or appliances from anywhere inside or outside your house - in the yard or from your car.

Keep one by the bedside so you can turn on lights if you hear a strange noise in the middle of the night.

Add additional slimline key fobs; leave one in your home and have one in your car.

In conjunction with CM11E, the KR19E is a 4 macros controller.

Benefits

The KR19E sends radio frequency signals to any X10 RF receiver - transceiver module or security console.

Its codes are preset to A1 + A2. You can change the house and unit codes easily with a simple key press sequence.

Key Features

- Lets you turn on and off 2 appliances or lamp modules - and Bright or Dim.
- Fits easily in your pocket with new slimline design.
