

# Key Chain Security Remote

*With 5 complementary functions*

**Product number : KR21E**

## Benefits

Arm and disarm the security system with a press of a single button.

Turn on and off a light or an appliance module.

Panic alarm feature: any 2 adjacent keys pressed at the same time will activate the alarm.

There is no code wheels to set, a random code is automatically assigned during set-up, which uniquely identifies each remote control. You can install up to 8 remote controls on each security system.

## Typical Applications

Arm, disarm the security system, control lights or appliances or trigger the alarm from anywhere inside or outside your house - in the yard or from your car.

Keep one by the bedside so you can turn on lights or trigger the alarm if you hear a strange noise in the middle of the night.

Add additional wireless remote controls, leave one in your house and have one in your car.

## Key Features

- Lets you arm and disarm any X10 security system with or without the built-in alarm.
- Panic function to trip the system immediately.
- Lets you turn on and off an appliance or a lamp module.
