

# New Power Mid Plus now battery powered !

## Powermid receiver + UR24E

Product number : P550

### Key Features

- Battery powered receiver - up to 5000 hours operation time
- Stylish universal remote UR24E - to control up to 8 appliances: TV - VCR - SAT - DVD - Cable - CD - plus X10 Home Automation modules and MP3, DVD, CD computer drivers
- Easy set up : look up the code for the equipment you want to control and enter it into the remote using a simple key sequence

### Benefits

**Many homes today have been pre-wired with coaxial cables to distribute the Audio/Video signal. But you still need to send the IR control codes.**

With The POWERMID™ Plus, you can control any distant A/V appliance, from your armchair, with NO extra cable at all ! Indeed, the multi-functional 8in1 universal remote sends the codes by RF to the POWERMID receiver.

This one converts back the RF commands into infrared signals and then sends them to the audio and video equipment.

Moreover, the NEW POWERMID™ Plus receiver works with rechargeable batteries making the receiver side independent of a mains outlet. Battery operation is possible up to 5000 hrs.

**Now you have total flexibility in terms of location.**

### Technical data

#### POWERMID RECEIVER (P550)

- AC supply: 230V  $\pm$ 10% / 50 Hz
- Battery supply: 4 x LR 14
- RF Input: 433.92 MHz
- Operating Range: 60 m approximately (open field)
- Approvals: CE Mark
- Operating Temperature: 0 to 40° C
- Storage Temperature: -20 to +70° C

#### UR24E UNIVERSAL REMOTE :

- Batteries: 4 x AAA
- RF freq.: 433,92 Mhz
- Radiated Output: below 5833
- RF Range: 30m (open filed)
- Approvals: ETS 300220, CE Mark
